TRAIN KILLS HIM NEXT DAY

Dairyman Escaped by a Narrow Shave the Day Before.

Pottstown, Pa., April 17—The grade crossing claimed another victim here yesterday, when Henry F. Ramer, 36 years old, a well known farmer and dairyman, near Sarratoga,was so badly injured at the Sprogrell's crossing over the Schuylkill Valley division of the Pennsylvania railroad, in the lower part of town, that he died shortly after being taken to the hospital

Ramer was driving his milk delivery horse and did not see an express train, bound for Philadelphia, coming. It struck the team with such terrible force that the horse was hurled 50 feet against against a steel post and shattered it. The animal died in a few minutes.

Ramer was caught between the smoke box and frame of the locomotive, and with fragments of his wagon was carried 800 feet before the engine could be stopped. He was wedged so tightly that he had to be pried loose. He sustained a triple fracture of the skull.

Only yesterday morning Ramer escaped by the narrowest margin being struck by the same train at the same crossing. He was a bachelor, and the support of an invalid brother and a widowed sister and her three children.

GOVERNOR MANN HAS APPENDICITIS

Physicians Regard Operation Unnecessary, as it is a Mild Case.

TAKEN MONDAY NIGHT

While no Apprehension is Manifest, Executive Was Forced to Cancel Reception to Educators.

Richmond, Va., April 17—Governor William Hodges Mann is ill at the executive mansion with a mild attack of appendicitis.

While members of his family and intimate friends were very much concerned yesterday over his condition, it was stated by his physicians that it was not critical, and that it would hardly be necesary to operate or to remove him to a hospital.

Dr. Charles R. Robbins and Dr. Manfred Call, who were called in by Dr .Herbert Mann, the Governor's physician, confirmed Dr. Mann's diagnosis that the patient was suffering with appendicitis with the milder form The Governor was stricken on Monday night. It appeared that the trouble was indigestion, but when he failed to show improvement, Dr. Robins and Dr. Call were summoned to the mansion. Because of his illness Governor Mann was unable last night to deliver an address at the opening session of the Conference for Education in the South, and early in the day it was announced that the reception to the convention could not be held at the mansion last night.

Although confined to his bed,under the care of nurses and physicians, the Governor was able yesterday to see Ben P. Owen, his secretary. He signed several official papers of an urgent nature, including the designation of Judge Jesse F. West to hold a special term of court in Princess Anne county. Matters of less importance were not presented to him by advice of the doctors.

It is known that Governor Mann has been under a severe strain for months, due to the activity of a large part of the public to have him commute the sentence of Claude Swanson Allen. He gave the Allen case very close attention and was worried beyond words by friends and sympathizers who wanted to save the Carroll county murderers from the death chair.

Dr. Mann stated late last night that the condition of the Governor was about the same; that the attack appeared to be of a mild character, and it is hoped will yield to medical treatment without resort to an operation. At the mansion the condition of the patient was reported as being "more comfortable" than during the day

Accompanied by her two daughters, the woman and Herold arrived in this country a few days ago and located in Camden. They spent one night in the house, and the following day Herold vanished.

It was then that the woman discovered that she had been robbed. Through a neighbor she decided to tell her troubles to Justice of the Peace Schmitz, and a warrant was issued for the arrest of Herold on a charge of the larceny of the missing money. The woman was then referred to the state's attorney to whom she said she believed she had been hypnotized by a gay deceiver.

POPE PIUS RALLIES DURING THE NIGHT

Considerable Anxiety, However is Shown Over His Condition.

PASSES QUIET NIGHT.

Preparing For Eventualities—Nuncios, Cardinals and Apostolic Delegates Ready For Conclave.

Rome, April 17.—Dysentery caused last night's crisis in the Pope's condition, and it continued today. Dr. Andrea Amici today said that the physicians feared the exhaustion would kill the Pontiff, but admitted that he might possibly live a week.

Pope Pius X, after several hours of tranquil and refreshing sleep, was consderably improved today. Though the gravest anxiety prevailed in and about the Vatican, his physicians held that in view of the late development the time to abandon hope had not yet come.

After their first thorough examination today, the doctors issued the following bulletin:

"The Holy Father passed a quiet night and his condition is improved. He has no fever and the bronchial affection is ameliorated."

The night, which at its beginning was perhaps the most alarming since the Pope fell ill, gradually took on a tinge of hopefulness, until by morning it was believed that the Pontiff, could he but hold out several days longer, might have a chance for recovery

The Pope at midnight was unusully restless and was greatly tormented by his cough. He was allowed to sit up in bed, and this, to a certain degree, alleviated the throat and lung discomforts. But His Holiness was talkative and paid no heed to the doctors' orders to be quiet. His loquaciousness caused his temperature to mount.

After a severe fit of coughing in the early morning hours, the Pope fell into a deep sleep, from which he apparently derived much benefit. The sleep came a little after 2 o'clock, and at dawn the Pontiff was still sleeping. He appeared to be so comfortable that his attendant did not wake him to take nourishment, the physicians saying that rest would do him more good than the food. His sleep early today was undisturbed by coughing.

Early last night the Vatican made every preliminary preparation for the Pope's dissolution. Mgr. Caccia Dominioni, chamberlain, notified Cardinal Oreglia, dean of Sacred College, that the ned was near. Cardinal Oreglia, who has been an invalid for months, suddenly was rejuveriated, and ordered his coachman to have his carriage in constant readiness. The dean is the acting head of the church during the vacancy of the Holy See. He is eighty-five years old.

It was said that Cardinal Merry del Val telegraphed and cabled all papal unions and apostolic delegates to notify foreign cardinals to be in readiness for a conclave of the Sacred College, and rumor spread among the correspondents that the Italian government had made an unofficial agreement with the Vatican to hold up all telegraphic and cable communications in the event of the Pope's death in order to give precedence to messages to cardinals and other church dignitaries.

Washington, April 17.—The reports of the Holy Father's illness during the past week have occasioned much concern to Catholics here and abroad.

Should the Holy Father succumb to this present illness the College of Cardinals, which is really the most cosmopolitan and democratic body in the world, will at once assemble in Rome and begin the vote for the successor of Pius X. Who the successor is likely to be no one can conjecture. The College of Cardinals which is generally limited to seventy-two, at present is composed of sixty cardinals, only two of whom are seniors of Cardinal Gibbons; namely Cardinal Oreglia who was made Cardinal in 1873, and Cardinal Neto, who was made Cardinal in 1884.

Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous success of the well known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., as compounded in D.D.D. Prescription.

We have sold other remedies for skin troubles but none that we can recommend as highly as this for we know that D.D.D. stops the itch at once. We can give you a trial size bottle for 25 cents that will be enough to prove it.

Of course all other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute.

But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee:—If you do not find that it takes away the itch AT ONCE, it costs you not a cent.

NEWS OF THE OLD DOMINION.

GETS COIN OF SYMPATHIZERS.

Finally Meets a Knowing Man and is Exposed.

Roanoke, Va., April 17.—A stranger, tall and lank, and having every appearance of a mountaineer has been in Roanoke during the past several days begging alms and drinks from the free hearted Allen sympathizers of this city.

He claims to be a son of Jack Allen and carries papers which he exhibits to show the correctness of his claim. His plan was to enter a saloon or other place and when a discussion would arise as to the Allens, he would "but in" by telling that he is a son of Jack Allen and how he had gone to Richmond to see Governor Mann in behalf of his uncle and cousin, Floyd and Claude Allen, and how by remaining there he had become stranded and was now making his way back to his home in Carroll.

He could talk glibly of the mountain county tragedy seemingly being well posted to men who did not happen to know the situation.

He is said to have soaked a good many free hearted Roanokers of small sums of money ranging from a dime to a dollar and it is hard to tell how many free drinks he was given over the counters of the Roanoke saloons.

His little game was blocked Saturday morning when he stepped into a saloon on Salem Aven. and Nelson street and began to tell the customers of the place that he was a son of Jack Allen. It happened that the Mabry Brothers who run the place are Carroll county men and knew all of the Allens personally. They soon unmasked the imposter.

SEE THEIR FIRST TRAIN.

Inhabitants Line up to See Train on New Branch of N. & W.

Tazewell, Va., April 17.—The first passenger train over the Indian Creek branch of the Norfolk and Western, the road recently built to develop the coal land between Cedar Bluff, Va., and Can Brake, W. Va., made its initial trip Tuesday morning. A large delegation of the citizens living along the route boarded the train at the different stops and made the round trip. All along the route of forty miles the country folks, many of whom had never seen a passenger train before, were lined up alongside the track and greeted the train with shouts. A schedule of three trains a day each way has been established for the present. The road passes through one of the richest coal sections in the southwest.

Lynchburg, Va., April 17. —The State Convention of the Young Men's Christian Association opened here yesterday and about 300 men and boys are in attendence. An athletic meet for accredited delegates to the convention will be held on Saturday on the Island playgrounds, belonging to the Association. The meeting promises to be one of the best the association has held in years. A banquet will be held Friday night.

Frightful Accident.

Fredericksburg, Va., April 17.—At Haley's sawmill, in lower Caroline county, Frank Gentry a sawyer had his right side from his shoulder to the hip sawed off. In handling the log Gentry became entangled with it and was pushed under the saw. He got up on his feet after being released by the saw but a moment later dropped dead. He is survived by his widow and several

FLY SWATTING.

Now is the Time, Say Health Officers, to Get Protection Against Typhoid.

Richmond, Va., April 17.—Compared with the results in July or August, spring fly-swatting is a hundred to one investment, according to the State Board of Health, which today renewed its admonition for a general spring-cleaning.

Millions of flies survived the winter, says the Board, and these will begin to increase their families at amazing rates from this time until the end of September. As each female fly is the mother of at least 200 flies, all of which are fully grown in two weeks, the increase in the offspring of a single fly is in a geometric ration sufficient to stagger a mathematician.

"A mild winter and many spring flies mean typhoid fever," reads the bulletin of the Board. "Last summer, with a favorable season and extensive precautions we were able to record the lowest typhoid rate Virginia has known in years. But this standard canot be again attained unless the people are willing to take the necessary precautions. A general clean-up of all premises is of prime importance in that it will destroy the breeding-places of the flies and of equal importance is the proper care of all outhouses. We can have this year as little or as much typhoid as we wish, and we can assure ourselves that this summer scourge can be greatly reduced by our careful and concerted efforts. The clean-up weeks arranged for Richmond, Petersburg and other cities are to be commended and should be adopted in all the cities and towns. Equal pains should be taken on the farms where neglect generally results in an outbreak of typhoid which may sweep the family. We are not very hopeful this summer and do not anticipate a favorable season but the danger will be greatly reduced if our people swat the fly and clean their premises now."

BOY IS BADLY INJURED.

Son of Bedford City Editor is Stunned by Fall From a Ladder.

Bedford City, Va., April 17.—Quite a serious accident occurred Tuesday morning in the office of the Bedford Democrat here. Lee Harrison son of Mr. M. T. Harrison, editor of the Democrat, is an electrician, and was stringing some electric light wires in the editorial rooms of his father's office, and fell off the ladder he was standing on. Some one in the next room heard him groaning and he was found on the floor unconscious, and is not yet able to tell exactly how the accident hapened. The ligaments of his right foot are badly torn, and the foot is mashed and swollen. It is said that he also struck his head against the safe or some article of furniture, as he is still in a dazed condition.

Runaway Accident.

Harisonburg Va. April 17.—John A. Herring had a narrow escape Tuesday afternoon when a runaway team collided with his buggy near Bridgewater. Captain Herring who is about 70 years old was thrown violently to the ground sustaining injuries to his back and other parts of his body.

Murderer Caught in Chicago.

Chicago, April 17.—The slayer of George Dietz, a wealthy tailor, has been captured. He is confined in a cell and assistant Police Chief Shanahler and Coroner Hoffman declare he confessed to the crime after an examination which lasted nearly all night. His identity was not made public. The police would not admit whether the death of 16-year-old Edna Frederickson after illegal operation had any connection with the murder.

SANITARY ACTIVITY.

Board of Health Commends Colonial Beach.

Richmond, Va., April 17.—With the coming of the summer season and the advent of vacation visitors, the State Board of Health thinks that a number of Virginia resorts will emulate Colonial Beach and install improvement which will add to the comfort and sanitation of citizens and guests alike. In a bulletin issued yesterday, the Board of Health cites a report just filed by Sanitary Engineer Messer, in which he commends Colonial Beach's activity and holds up the Potomac pleasure resort as a model for the State.

Heretofore, according to the report of Mr. Messer, the citizens of Colonial Beach have been somewhat troubled with their water and sewarage system and felt that their failure to provide ample facilities was a decided handicap to the progress of the town. For this reason, the town voted a bond issue of $37,000 which was devoted to the installation of a thoroughly modern water-supply and sewarage system. This has now been completed with an artesian well 400 feet deep, a 60,000 gallon concrete reservoir and about 3 miles of water mains. The system of sewage disposal is declared by Mr. Messer to be most adequate and includes arrangements for the treatment of all sewage.

"An inspection of the new system," reports Mr. Messer, "by the Board of Health and by Engineer Henry Stevens, and Inspector A. R. McGonegal of the District of Columbia convinces us that Colonial Beach is now prepared to entertain in health and sanitary comfort her host of summer guests. The town has set a splendid example for the other towns of Virginia and has done the greatest possible service for its citizens and visitors.

"Experience has shown that a supply of pure drinking water and a complete sewerage system are the greatest single asets any town can possess. The progress in the sanitation of our Virginia town has been in direct proportion to their improvement in these directions and other health measures are largely futile unless they are based upon a good water supply and proper sewage disposal."

YOUNG MAN SHOOTS FATHER

Farmer Was Threatening His Son With Knife When Wounded.

Cape Charles, Va., April 17.—In a quarrel at Daugherty, Va., a small village two miles from Accomac, yesterday evening Dorsey Chambers 22 years old, shot and mortally wounded his father, W. A. Chambers, a prosperous farmer. It is said the father had thrown the son to the ground in a scuffle and was threatening him with a knife, when the son drew a revolver from his pocket and fired, the ball entering the father's neck and passing through the cheek. His recovery is doubtful.

CENSORSHIP ON CHURCH DEBTS.

The action of the Washington Presbytery in instituting measures by which churches in that jurisdiction will in the future be debarred from piling up debts without the consent of the Presbytery will prove a gentle hint to all ecclesiastical denominations which take upon themselves obligations which generation after generation is compelled to stagger under.

Several years ago a writer in the New York Tribune published an article entitled "Church Financiering" in which he made it plain that there is great recklessness on the part of many well-meaning people who rush into needless extravagance in erecting structures or for other purposes in the name of church work.

The young are generally enthused over such schemes and lose sight of the fact that pay day is sure to come. Such thoughtless people would not make dangerous plunges on their individual responsibility, but, like certain representatives in legislative bodies, they fail to see such responsibility when incurred collectively.

The fact remains, nowever, that debts must be cancelled eventually, and that every individual member of a church as well as each member of a community is morally responsible for obligations made in their name.

It is a mooted question with many whether devotion to the Creator in the shape of bricks and mortar is the sine qua non of spiritaulity. When creditors are compelled to wait years for their just dues it would seem that other methods of showing religious fervor would appeal more to the world.

The glaring words, "Owe No Man Anything," if followed closely, would remove unnecessary thorns from the pillows of the many.

FEW NEWSPAPERS IN VIRGINIA

Within the last few days important changes have occurred in newspaper ownership in Virginia. The Newport News Press, morning, and the Newport News Times Herald, evening have been brought under one management and will be produced from the same plant

W. S. Copeland, former owner of the Times-Herald, one of the best writers and foremost newspaper men in the State, becomes president of the new company, and will have editorial management of both papers.

Roanoke, one of the largest cities of the state, also has adopted the trend of the Times towards fewer newspapers, and hereafter will only have two. The Times, morning, and News, evening, already under one management with Col. A. B. Williams as president and editor, has now merged the World with the News, and Roanoke hereafter will have only one afternoon paper.

Norfolk, next to Richmond, the largest city in the State, has responded to the wisdom learned of experience, and by gradual merger has only to newspapers left—the Virginian-Pilot, morning, and the Ledger-Dispatch, afternoon.

Commenting on the changes, the Richmond Journal says:

"The practical lesson in all is that fewer newspapers make a surer success of those which are left, and a newspaper these days is too big a proposition to have many of 'em.

"The day when a man, who, desiring to reach the public ear, could buy a peck of type, a few wooden stands and a flat bed press and start a newspaper, has ceased.

"The daily newspaper has become a great manufacturing plant, making it necessary to have large capital to establish it and a large income to maintain it. The consequence is that there are fewer newspapers and better ones.

"It is a serious matter these days to inaugurate a new paper, and the tendency is all in the direction of decreasing rather than augmenting the number."

WILL TAKE OVER CANAL.

Purchase of Albemarle And Chesapeake Waterway by the Government Approved.

Within the next 10 days the United States government will formally take over the Albermarle and Chesapeake Canal, connecting Albemarle Sound with the Chesapeake Bay, and establish, not only the first link in the proposed Atlantic inland waterway chain, but a free water way between Maryland, Virginia and North Carolina waters.

The statement was made yesterday evening by the War Department that the titles to the canal property have been approved and requisition had been made on the government for the $500,000 purchase money by Cole E. Winslow, resident engineer at Norfolk, who is handling the matter for the government. The Department of Justice has approved all papers in connection with the purchase of the property. As soon as the law offices of the War Department put their "O. K." on the papers the money will be paid over and the canal will become the actual property of the United States Government.

The government will then proceed to tear down the tollgates on the canal and throw it open for free commerce. An appropriation of $800,000 was authorized by the last congress for the improvement of the canal. Steps, therefore, will soon be taken to widen the canal and increase its depth to 12 feet. It now has a depth of nine feet.

The opening of the canal will be a great boon to commerce. It will give steamship and towboat companies a free waterway from cities on the bay and the Potomac to Beaufort, N. C., Heavy tolls heretofore have been levied on shipping passing through the canal.

The Lake Drummond Canal, which now has approximately 75 per cent of the commerce between the Chesapeake Bay and Albemarle Sound, will be dirven practically out of business by converting it srival into a free waterway.

Blinded Fish.

Burlington, N. J ,April 17—An unexpected benefit came from a recent flood when thousands of shad, blinded by the muddy water, swam into the fishermen's nets.

New Victim of Black Hand.

Scranton, Pa., April 17.—Cataldo Pantanta, a well-to-do resident of Dunmore, was shot to death early yesterday morning in front of his home on Center street, and the officials are of the opinion that his death was due to the Black Hand, and is but another incident in the working of that organization here.

Following so closely the murder of Dominick Pesanto, a barber, in the same vicinity four weeks ago under similar circumstances, the crime naturally looks suspicious. There were six bullet wounds in the body.

Eat Blossoms And Die.

Susquehanna, Pa., April 17.—Miss Amy Burhight, aged 35, is dead, and Albert Denny, 35, a fireman for the Lackawanna Railroad, is expected to die as a result of eating what they took to be "arbutus" while walking along the banks of the Susquehanna river, in Lanesboro near here.

The couple went picking arbutus and ate some of the flowers, it is claimed, when they started to walk toward the Lanesboro station, when Miss Burhight complained of being ill and was seized with convulsions, dying later.

SUN AT LAST

When the April sun floods the earth with light,
After weary days of rain,
It makes folks glad and it makes hearts bright,
With its welcome beams again

There is something about this warming rays,
That makes me glad I'm alive,
Oh,give me the mellowing April days,
And, you bet your life I'll thrive,

Talk of the Northern climes, if you will,
And their bracing, healthy cold,
But give me the Spring's warm, sunny spell
That keeps me from growing old.

It's lazy, perhaps, to lige the sun,
But the comfort it gives, you see,
Is the same I've enjoyed since my life's begun,
And is God's cheapest gift to me.

We met a pessimist, this morning, who lamented bitterly because he had to leave his umbrella at home. He said that his constant association with it, during the rainy season, had given it a powerful hold on his affections.

Now, Braxton, why do you inflict moving pictures on us in which a single company of Yankees pu to flight a whole regiment of Confederates? It occurs to us that that particular film was billed for dear old Boston, and got sidetracked.

There is sunshine in my soul today,
After days of sloppy rain,
Oh, let the sunbeams gladly shine,
Dark days give me a pain.
Chorus—
There is sunshine, blessed sunshine, etc.

"Such shipments mean Studebaker has the confidence of the farmer"

Every year over one hundred thousand horse-driven vehicles are sold by *Studebaker*. Over a million Studebaker vehicles are always in use. Stop and think what that means.

This enormous output means that Farmers—the men who know—depend upon *Studebaker* wagons to do their work.

And a *Studebaker* wagon never fails. It is always ready to do a big day's work—and to keep on doing it. There are thousands of Studebaker wagons that have been in service from 20 to 40 years.

A *Studebaker* wagon is a real business asset. Wheels, body, frame, axles and running gear have been tested and retested by experts. You can buy cheaper wagons but they're not *Studebakers*, nor will they last like *Studebaker* wagons.

Whether in city, town or country, for business or pleasure, there is a *Studebaker* vehicle to meet your requirements. Farm wagons, trucks, contractors' wagons, buggies, surreys, runabouts, pony carriages, business and delivery wagons—each the best of its kind. Studebaker harness also, of every description.

NEWS OF THE DAY.

John Miller and his brother Lawrence, ager 11 and 7 of New York, found their father's old shotgun yesterday, and, to make it more realistic, stuck a lighted firecracker in the muzzle. When the firecracker went off it exploded an old charge in the gun. The shot entered Lawrence's side and he died in a few minutes.

Roland Shugart, a lawyer, was killed, and his brother-in-law, Haynes Moore, was fatally wounded in a pistol fight on a street in the northern part of Birmingham, Ala., yesterday. Ill feeling between the two men originated after Shugart and his wife, who was Moore's sister, parted. Each man drew his pistol and began firing when they met on the street.

Bench warrants for President Chas. S. Mellen and Vice President E. H. McHenry, of the New Haven Railroad, were issued yesterday morning by Judge Green in the criminal side of the superior court at Bridgeport, Conn. They charge the two officials with gross negligence and manslaughter in connection with the Westport wreck last October in which several lives were lost.

"I dismounted for the purpose of killing the fiend, and I did, and I'm not sorry," was the atetitude taker yesterday by Mrs. Delia S raud, 2 and beautiful, who Tuesday shot an killed her husband, president of th Vivial Oil Company, of Shreveport La., after he reproached her for be ing out riding with Edward Beele "He was a brute. He beat me an kept me tied to my bed for a weel I have welts all over my body, an my shins are masses of bruises fron where he kicked me. When I go t trial I shall prove all this. Ther is not a chance of my being convicted."

While a stubborn fire was burning in the coal bunkers of the steamer Cincinnati on her voyage from Genoa which ended last night at New York the passengers slept, ate, and walked about,and enjoyed the usual ship board recreations, in entire ignorance that anything out of the ordinary was going on. It took the crew three days from April 12, when the out break was discovered, until yesterday, to extinguish the fire. At no time was there any danger of the fir spreading, however, the officers said when the Cincinati reached quarantine.

Prisoners set fire to the county jail at Sterling, Ill., early yesterday in an effort to effect a jail delivery. Michael Sellers a prisoner was burned to death in his cell. Sheriff Ward was badly burned in rescuing several of the prisoners. The interior of the jail was destroyed.

C. N. Johnson, a stationary engineer, was found guilty of murder in the first degree Tuesday at Seattle, Wash., for causing the death of his six-year-old child by standing with the boy in his arms in front of a speeding passenger train last December. Johnson on the witness stand told of making a suicide agreement with his little son, after Johnson and his wife had quarreled. Witnesses o the killing said the child pleaded with his father not to destroy him. The boy was kille dinstantly by the train and Johnson received a broken leg and a cut on the head. Sentence will be imposed later and may be either death or life imprisonment, as the anti-hanging law passed by the last legislature does not go into effect until June 14.

"Half the great poets were insane. Genius and insanity are closely related," said Dr. F. W. Mott, F. R. C. O., F. R. S. who has charge of 20,000 lunatics in the London Hospitals. He went to Baltimore to join in the opening exercises of the Henry Phipps psychriatic clinic yesterday afternoon. "The poes were in many cases the sons of erratic nervous parents. There is not much difference between the highly imaginative thought of the poet or of the genius on one hand, and insanit yon the other" he continued.

It was officially announced in Tokio yesterday that arrangements have been concluded for the issue in Paris of a Japanese loan of $38,500,000 at 5 per cent. Thirty-five millions of this amount is to be allotted to the redemption of railroad bonds.

Suffragettes carrying sandwich boards advertising a militant meeting at Islington, England were attacked yesterday by other women, who seized the boards and belabored the suffragettes with them. The suffragettes and clothing torn. The suffragettes were being badly mauled when the police arrived and escorted the women to a place of safety, followed by a jeering mob.

The crew of the schooner Lottie R. Russell, which was abandoned 70 miles off Cape Henry on April 13, reached New York yesterday on the oil tank steamer Georgian Prince. For 48 hours the members of the crew said, they had been adrift in the Atlantic, most o fthe time without food and for 24 hours in a small open boat surrounded by sharks. The schooner sailed from Charleston, S. C., for Philadelphia last Friday. Saturday morning shewas hit by a terrific gale and high seas, and sprang a leak.

Cardinal Gibbons, at Pittsburg last night has cancelled all future engagements, and will leave as soon as possible for a seaport town, from where he can embark to Rome at a moment's notice.

SCENE IN LEGISLATURE.

Former School Teacher Called a Warm And Dirty Little Shrimp.

Proceedings in the Illinois lower house were enlivened yesterday by a attempted attack upon Speaker William McKinley, of Chicago, by Representative Lee O'Neil Browne, of Ottawa, during a debate.

Browne rushed from his seat toward the speaker's rostrum waving his fist and shouting threats. Speaker McKinley unavailingly called upon Sergeant-atArms Gus Kein, of Ottawa, a Browne appointee, to force Browne to take his seat. Only for the interference of several men Browne would have succeeded in reaching the speaker.

"You wart! You dirty little shrimp, you've insulted every member of this house,' shouted Browne as he ran down the aisle. "You're not teaching school out in the Iowa brush now, and I'll show you that you can't handle this house in this manner."

As Browne neared the rostrum, a number of representatives surrounded him. Speaker McKinley stood at his desk throughout the row, pounding his gavel for order and calling upon the reluctant sergeant-at-arms to carry out his orders. After several moments of confusion Browne was prevailed upon to return to his seat.

The trouble started during the debate over a resolution for a general investigation of political and business affars in Cook county during the last two years, in connection with which there had been rumors of corruption. The resolution was tabled.

As a result of the affair Speaker McKinley refused further to recognize Browne during the course of the debate and stated that he would demand the immediate removal of Sergeant-at-Arms Kein.

This Girl Recovered From Consumption

The makers of Eckman's Alterative, which is doing so much good for Consumptives, are continually in receipt of wonderful reports of recoveries brought about solely through the use of this medicine. These reports are always at the command of any one interested, and many of the writers in their gratitude have suggested that like sufferers write direct and learn what it did for them. Here is one specimen: 421 Second Ave., Aurora, Ill.

"Gentlemen: Pardon me for not writing sooner, but I wanted to see if I would stay cured. I can now truthfully say I am perfectly well. I wish to express my heartfelt thanks. I have no pain, no cough, no night sweats, no hay fever. Since a child of two years, I have been ailing with lung trouble, which grew worse as I grew older. At the age of fourteen the doctor said if I could not be sent South I would surely die of Consumption. Every winter I would be sure to have either Bronchitis, Pleurisy or Pneumonia. I had Typhoid-Pneumonia one time. I had catarrh of the stomach and bowels and had Hay Fever for the last few years; but have not anything of the kind this year.

"I will answer all letters sent to me, asking a history of my case, from any one suffering with lung trouble."

(Sworn affidavit) ETTA PLATH.

(Five years later reports still well.)

Eckman's Alterative is effective in Bronchitis, Asthma, Hay Fever; Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists

TRUSTEE'S SALE OF RESIDUE.

Trustee's sale of the residue of the "Belvoir" or "White House' 'tract of land located in Mt. Vernon Magisterial District, Fairfax County, Va., containing approximately 1100 acres with improvements.

By virtue of the authority vested in us by the will of Philip Otterback, deceased, and under decree of the Circuit Court of Fairfax county, Va., in the suit of Otterback vs. Bohrer, at its March term, 1913, the undersigned trustees will offer for sale at public auction, in front of the Royal Street entrance to the Market House in Alexandria, Virginia, at

12 O'CLOCK NOON, ON SATURDAY, THE 26th DAY OF APRIL, 1913,

the above described property.

This tract, the old home of Lord Fairfax and separated from George Washington's home at Mt. Vernon, by Dogue Creek, originally consisted of approximateely twenty-seven hundred (2,700)acres,of which 1,500 acres has been taken by the United States Government for a school of Equitation or Horsemanship. The balance between ten and twelve hundred acres consists of valuable farming lands and about eight hundred (800) acres of valuable timber. It has a large deep water frontage on the Potomac river as well as a large frontage on Dogue Creek, with valuable fishing shores. The property is improved by the old mansion house, familiarly known for many years as the "White House," a club house, barns, stables, out-buildings and tenant houses. It is situated on the county road between Mt. Vernon and Accotink and is about four miles by road from Mt. Vernon. This property is one of the most historic in the section and would make a very desirable country estate because of its location and the opportunities afforded for fishing and shooting.

Terms of Sale:—One-third cash and residue in 3 equal annual payments at one, two and three years from the date of the confirmation of the sale with interest from the said date of the confirmation of sale at the rate of six per cent per annum, interest payable semi-annually, with right to anticipate the time of paying the deferred payments, secured by retention of title till paid.

STRIKE IN BELGIUM.

Socialist Asserts $400,000 Have Left Their Work.

Brussels, April 17.—The manhood suffrage strikers were joined today by several thousand additional workers, and on the third day of the movement when Vandervale had predicted a half million would be out, the socialists at the People's Palace said that 400,00 men have quit work. The clericals asserted that no more than 250,000 were on strike.

Two thousand wives of strikers carrying babies in their arms today marched through the streets singing the "Marseillaise," as a tribute to a liberal millionaire, who has offered to care for 15,000 children of workingmen during the strike.

The socialists professed to fear no opposition to the troops, because many of the soldiers are in sympathy with the strike.

"I know that the soldiers would not fire on us," said leader Camille Huysman. Many of the officers as well as the men, are socialists."

FOR EDUCATION IN SOUTH.

Preachers, Farmers, Business Men And Educators Confer.

Richmond, April 17.—After all day sessions by various sections and committees the conference for education in the South formally opened its annual meeting here last night, with delegates in attendance from many States. Walter H. Page, named as ambassador to Great Britain, presided in the absence of Robert C. Ogden, the president, who was detained at his home in New York by illness Governor Mann, who was on the program, became ill yesterday afternoon and could not attend. Meetings were conducted during the day by business men, by farmers and by Virginia preachers, all working for a common purpose.

The relation of the country church to health, community morals, recreation and many other problems of rural life were discussed by the ministers.

Co-operation in buying and selling was the doctrine preached at the Farmers' Cnference. The business men's meeting discussed farm questions.

From Maryland there are several representatives in attendance including Dr. Thomas Fell, provost of the University of Maryland; Dr. Thomas H. Lewis, president of the Western Maryland College; Dr. M. Bates Stevens, Superintendent of Education, and Dr. Samuel Garner, Superintendent of Anne Arundel county.

At the College Conference presided over by A. A. Murphree, president of the University of Florida, plans for working out a system of extension work adapted to the rural committee of the South were discussed.

It was stated that there was a great need of course in agriculture for training teachers of the public schools and high schools.

BYRD APPOINTED SECRETARY.

His Acceptance Means Relinquishment of Position as Speaker of House.

A big surprise came yesterday, when Senator Martin, chairman of the commission which was created at the last session of Congress to investigatethe purchase of American grown tobacco in foreign countries, announced the appointment of Richard Evelyn Byrd, of Winchester, Va., as secretary. The place pays about $300 a month. It is not so important in itself, as the appointment is understood to be of a temporary character, as it is for the reason that when Mr. Byrd takes up his duties he will be forced to quit the office of Speaker of the House of Delegates of Virginia by accepting a Federal appointment.

It is understood that if for an yreason an extra session of the Legislature should be called, Mr. Byrd would not be eligible as Speaker.

LATE TRAIN ENDS ELOPEMENT.

Lynchburg, Va., April 17—Love laughs at locksmiths, but not at belated Southern trains, and all because the Memphis special, bound for Bristol, was 40 minutes late Tuesday, a real elopement was nipped in the bud Earl Norfsinger and pretty 16-year-old Annie Martin had planned to elope to Bristol and be married.

With baggage in hand, they went to the station, but the train was late. In the meanwhile Miss Martin's mother missed some of her personal belongings. She sent to the telephone exchange where her daughter was employed, and found Miss Martin had not been there.

The police were notified, and the father started on the trail. He located the prospective groom at the Southern station, but he did not get a chance to ask for his daughter, for Norfsinger fled. The girl was found by the station matron hiding in the ladies' retiring room having gone there to wait the arrival of the belated train. She was taken to her home.

CONDEMN MILITARY TAX.

Berlin, April 17.—"More than 4,000,000 social democrats in Germany are against the government's $262,000,000 emergency tax for increasing the army and for other military preparations. We are against it in principle and act," declared Eduard Bernstein, the famous leader of the "revisionists" wing of the Socialist party. Bernstein is a member of the reichstag. It was in the lobby of the Reichstag that he discussed the proposed extraordinary military preparations German is making. He is the chief of the progressive and liberal movement in his party, which includes the brainiest men and foremost thinkers among the socialists.

"It is true that the proposed one-time property emergency tax will not touch the masses," said Bernstein. "but we are against it none the less—against it because it is "semi-against the entire military system.'

"It has often been said both here and in the United States that socialists lack patriotism. Would you leave Germany defenseless?" was asked. "No, the socialists would leave the Fatherland defenseless," replied Bernstein. "We are against the military system as it exists. We are against tis because it as a 'semi-feudal' system, a military system in which the common man, the man of the people, has little cnance to rise—in fact, none at all."

KNIFE STRAIGHTENS BRAIN.

Starts Sixteen-Year-Old Boy on Road to Clear Thinking.

St. Louis, Mo., April 17.—Alfred Jones, 16 years old, no longer is "the boy with a twisted brain." After noted specialists had tried in vain to restore his mentality, a skilled surgical operation relieved the pressure of the skull on the memory centers of his brain, and after years of intellectual darkness he is beginning to see the light.

Alfred was born on Christmas day, 1896, seven months after the St. Louis tornado. His mother lived in the storm belt and received a severe nervous shock as a result of the tornado, though she was not physically injured. But the fright had a prenatal influence on the child

As the human brain continues to develop until the age of 23, it is pointed out by doctors that there still remain six years in which Alfred may profit by the surgical operation.
